

Biology A Level (OCR)

Why study this subject?

Biology is one of the most popular A Level subjects in the country, attracting students studying a wide range of other subjects. The study of Biology is essential to a wide variety of careers. Many biologists choose a career in medicine, dentistry, marine biology or forensic science. Biology is also a useful qualification that develops communication, problem solving and logical thinking skills. Subjects such as Chemistry, Geography, Physics, Psychology and Mathematics go well with Biology.

Entry Requirements

Please see the entry requirements page on the school website.

Content
