

# Bullers Wood Year 12

## Computer Science A Level - Summer Task

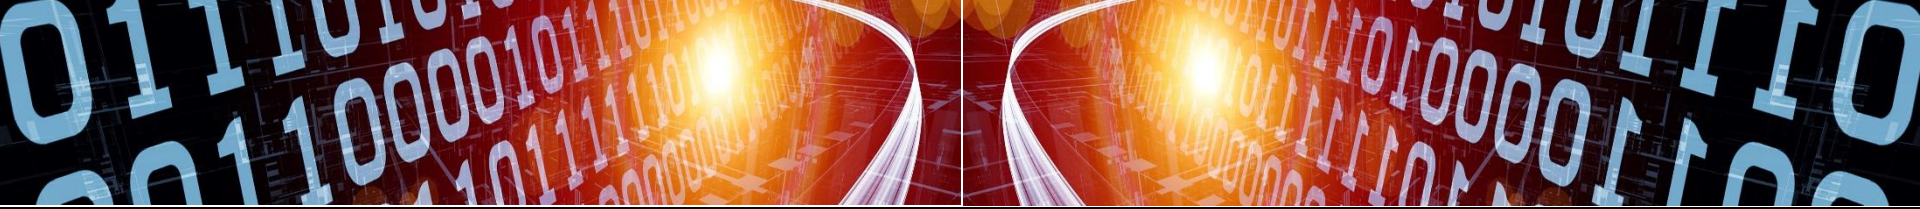

**Due in September 2022**

A level CS - Download and use the latest version of Python to complete the database section on [Python Database Tutorial – GeeksforGeeks](https://www.geeksforgeeks.com/python-database-tutorial/)

Over the tutorial you will develop a database using Sqlite to represent a small off-license. You will have to create a stock list, where you can add, delete, amend, sort and search entries made.

Your code must be have comments  
Make notes of any section you find difficult.
