

Keeping Safe in the Community

As our students are using public transport on the way to school or on their way home using public transport, it might be worth noting the following:

Important number:

British Transport Police: To report a non urgent crime in a discrete manner whilst on public transport - use the text service **61016**

We would encourage all our families to discuss this with their child and ensure the number is in their phone so they feel comfortable using it should the need arise.

This number will be advertised to Form Tutors and all students in the assembly given by Mrs German in the next week.
